

**Saturday August 14th at 10:30 am MDT**

**Project: Butterfly Jar**

**Materials:**

- Mason Jar or empty jam jar with lid (the jar should be clear)
- Scissors
- Pen
- Paper (cardstock paper of any color or pattern for the butterflies)
- Glue or tape

◆ **Note:** For this project, I will be using a hot glue gun. In my experience, hot glue yields the best results, does not require too much drying time, and is much less messy. As a result, I strongly advise parent supervision/participation for younger artists. However, if a glue gun is not an option, the tape can be used.
